Covid-19

The current COVID-19 situation in Poland (based on official data, probably underestimated), also against other EU countries, can be seen in graphical form e.g. in here <https://koronawirus-w-polsce.pl> After re-opening the recommendations given by the GUMED National Center for Hyperbaric Medicine in Gdynia (KOMH GUMED) follow the European Underwater & Baromedical Society (EUBS) and European Committee for Hyperbaric Medicine (ECHM) guidelines concerning recreational and professional diving and health qualification for diving during a pandemic coronavirus infection (COVID-19). On KOMH GUMED website <http://www.komh.pl/> you will find both original pdfs in english and direct polish translations
